

Blood Donors Are Sent Instructions

Appointment Cards Are Mailed This Week by Committee

Appointment cards giving the time when the registered blood donors of the Antioch area are to appear are now in the mail.

Mrs. Lucy Himmens, Mrs. Lyle Loftus and Mrs. Earl Pitman met at Antioch Grade school Wednesday to classify the cards of registrants and to send out the cards.

Members of the Red Cross committee from Waukegan were present at this meeting to help complete arrangements.

The Antioch blood donor drive ended Friday, July 9. Registrants from Antioch totaled 205; from Lake Villa, approximately 100, and from Fox Lake, about 45.

The mobile blood bank unit will be here July 23. Registrants' appointments will be arranged so that different groups will be received at different times of the day, so as to shorten the waiting period for each person as much as possible.

Pleased with Response
Roman Vos, who was in charge of the local drive, expressed himself as being well satisfied with the response.

Instructions as to their diet for the four hours preceding the time when they report are being sent to all who have registered. Donors are being requested to follow these instructions carefully.

A bronze emblem is given following the first donation, and a silver emblem following the third. Intervals of at least ten weeks must be allowed to elapse between donations.

Dies Day After 51st Anniversary

Mrs. Frances Pearl Passes Away at Zimmerman Home

Mrs. Frances K. B. Pearl lived to observe her fifty-first wedding anniversary Sunday before passing away Monday at the age of 72 years at the home of her daughter, Mrs. L. J. Zimmerman, Lake Catherine.

Besides her husband, William J. Pearl, and Mrs. Zimmerman, she is survived by a son, Elmer J. Pearl of Camden, N. J., by four grandchildren, and a sister, Mrs. H. W. Stone of St. Louis, Mo.

Patrolle Family

Mrs. Pearl's father, Charles E. Riel, was a Civil War veteran. She was also the granddaughter of a veteran. Her son Elmer fought in the first World War, and her son-in-law, Capt. L. J. Zimmerman, who was for many years a dentist here, is a veteran of World War No. 1 and is again with the U. S. armed forces. Two of Mrs. Pearl's grandsons (sons of Elmer Pearl) are now in the U. S. army.

Mrs. Pearl was born Oct. 3, 1871, at Mount Holly, N. J., but spent much of her life in Philadelphia. Since her husband's retirement 12 years ago from his work as a railroad man, the couple have made their home with the Zimmermans.

Services were held this afternoon at 2 o'clock, with the Rev. A. D. McKay, rector of St. Ignatius Episcopal church, officiating.

Dr. Zimmerman, who has been on overseas service, and has been granted a leave of absence, was endeavoring to arrive here in time for the services, although the plane in which he was a passenger was grounded in Pennsylvania by bad weather.

Mr. and Mrs. Stone are here from Missouri, and expect to stay until some time next week. Mr. and Mrs. Raymond A. Miller of Chicago, intimate friends of the family, were among those attending the services from out-of-town. Mr. Miller served with Dr. Zimmerman in the last war.

The services were conducted at the Strong Funeral home, with Mrs. L. V. Madden as vocal soloist. Burial was in Hillside cemetery.

Rescue Squad Called Out Twice for Heart Sufferers

The Antioch rescue squad was called to Indian Point Sunday when Rudy Anderson suffered a heart attack. Anderson, who had had no previous heart symptoms, had been helping to push a stalled car. He is reported much improved this week.

On Saturday the squad was called to Milburn to administer oxygen for another heart case, William Pope, 85, retired Evanston attorney, but found him dead on arrival.

S. H. Reeves Will Be 85 Years Old Sunday

Sidney H. Reeves, who was dean of Antioch business men until his retirement about a year and a half ago, will observe his eighty-fifth birthday anniversary on Sunday, July 18. Mr. Reeves was a practicing pharmacist for more than 60 years, the last 23 years of his career being spent in Antioch. He came here as a relief pharmacist just after the first World War. Since selling his store to Mr. and Mrs. George Borovicka, he has continued to live in his apartment in the building. Mr. Reeves contributed to the community life of Antioch in many ways, especially through his kindness to school children, and has been presented testimonials in the past in indication of the esteem in which he is held here.

Library Budget Hearing To Be Held on July 28

Public Meeting of Board Will Be Held; 1942- 43 Report Is Made

A public hearing on the temporary budget of Antioch Township library will be held at a meeting of the board of directors Wednesday evening, July 28, at 8 o'clock in the library, 883 Main street. A copy of the budget is posted at the library.

A summary of expenditures for the library during the year 1942-43 is published elsewhere in this issue of the Antioch News. The expenditures, totaling \$3060.53, included \$1120.15 for salaries; \$425.60 for furniture and fixtures; \$465.68 for books; \$33.00 for periodicals and \$581.38 for rent, heat and light. Other expenses included janitor service, repairs and improvements, supplies, printing, and postage, freight, express and telephone service charges.

A number of improvements have been carried out during the past year to increase the library's scope of usefulness to the community, and its attractiveness.

Re-decorate Children's Room

The children's reading room (a feature seldom found in communities the size of Antioch) has just been re-decorated in white and orange, and Miss Betty Lou Williams, librarian, hopes to be able to secure some large decalcomanias of Mother Goose characters, or some appropriate plaques, to brighten the walls still further. Reading tables and chairs in the children's room are all sized to a child's scale. The book shelves have been made purposely low, so that the volumes may be easily reached by the children.

Assisting Miss Williams is Miss Geraldine Noe. The board of directors includes Mrs. Ed. F. Vos, Mrs. A. G. Simon, Mrs. Eleanor Micheli, George White, Mrs. W. C. Petty and Dr. R. D. Williams, chairman.

The library is open daily from 10 a. m. to 9 p. m., and on Saturdays from 10 a. m. to 9 p. m.

Air Raid Warden School Graduation Is Postponed

Graduation of the Air Raid Warden class which has been conducted here for some time is being postponed until some of the Lake Villa wardens complete their first aid training, which is necessary for graduation.

All work in air raid warden training has been completed by the class. The Lake Villa men will complete their first aid courses July 10, and the graduation exercises for the wardens will be held shortly after that at Antioch High school.

RATIONING TIMETABLE

JULY 1—Blue Stamps N, P, Q, valid, expire Aug. 7.
JULY 21—Gasoline A Coupons No. 6, good for 4 gallons, expire.
Stamp 21 in Ration Book No. 1, good for one pound of coffee, expires.
JULY 22—Coffee Coupon No. 22, good for one pound, valid; expires Aug. 11.
JULY 31—Red P stamp expires.
AUG. 7—Blue Stamps N, P, & Q expire.
AUG. 15—Stamp 13 in Ration Book 1, good for 5 pounds of sugar, expires.
SEPT. 30—Last year's period 5 fuel oil coupons expire.

European Corn Borer Makes Its Appearance Here

Spraying with Rotenone or Nicotine Recommended by Kutil

The European corn borer is heavily infesting sweet corn throughout the state of Illinois, and according to C. L. Kutil, vocational agriculture instructor at Antioch High school, has made heavy attacks on early planted sweet corn in and around Antioch. Several plots have been inspected by Kutil and the infestation seems to be general.

The corn borer will probably cause a serious cut in field corn yields later on, Kutil says.

He comments that conditions have been extremely favorable for the corn borer during the past few weeks. "Borers thrive under conditions of high moisture and temperatures. The moth lays 15 to 40 eggs in clusters on the underside of sweet corn leaves. They prefer the tallest and best plants and lay from two to 15 masses or clusters on each plant.

"These eggs are hatching now and in some sections of the state some of the early planting of sweet corn had to be plowed up."

Delayed planting is one means of control, says Kutil, but it is not practical since the crop must be mature throughout the marketing season.

"Dusting or spraying with nicotine or rotenone has given the best results. Victory gardeners with small amounts of corn can examine the leaves and crush egg masses with their thumbnails to get rid of the pest.

"Plots examined around Antioch show borers working on the stalks just below the tassel. Some of the stalks are so weakened that the tassel has broken over and is drying up.

"The need is for borer resistant varieties," says Kutil, "but very little has been done along that line in sweet corn. More has been done in the field varieties and several borer resistant strains are available."

Congressman Church Announces Date For Annapolis Examination

The date previously set for the Annual Annapolis examination has recently been changed, according to advice received here today. The examination, which was scheduled to take place on August 21st, has been postponed to September 18. The change in date was made by the Civil Service Commission in order to allow West Point candidates to be examined in July, and the Commission scheduled a later examination date, September 18, for Annapolis and possible West Point vacancies.

Cong. Church said that there will be two vacancies at the Annapolis Naval Academy for admission in 1944, but that no vacancies for West Point would occur until 1945. There is, however, a possibility that new legislation might provide for additional appointees for admission in 1944.

Mr. Church has arranged with the Commission for the examination to be held in Cook County at Chicago, Evanston, Glenview, Morton Grove, Northbrook, Skokie, Wilmette, and Winnetka, and in Lake county at Antioch, Barrington, Deerfield, Grayslake, Highland Park, Highland, Lake Forest, Libertyville, Mundelein, North Chicago, Ravinia, Waukegan, and Zion.

All candidates must be actual residents of the 10th District, of sound physical health and good moral character. Those competing for the Annapolis appointment must be not less than 17 nor more than 21 on April 1, 1944, and those interested in the possible West Point appointment must be not less than 17 nor more than 21 on July 1, 1944.

Letters of application to take the competitive examination should be addressed to Congressman Ralph E. Church, House of Representatives, Washington, D. C. The applicant should state definitely where it would be most convenient for him to take the examination.

Candidates temporarily absent from the 10th District may be examined elsewhere, at such examination points where the Civil Service Commission maintains an office and examiner.

Letters of application must be postmarked before midnight, August 7.

Mary Lou Sibley returned to her work at St. Luke's hospital, Chicago, Monday, after a month's vacation.

PICKING DAISIES

News of the Boys in Service

Corporal Russell F. Roepenack, son of Mr. and Mrs. J. H. Roepenack, Antioch, has arrived at Kansas State college, Manhattan, Kansas, for a course of Army Air Force instruction lasting approximately five months prior to his appointment as an aviation cadet in the Army Air forces. During this period he will take numerous academic courses, as well as elementary flying training. Upon completion of the course, he will be classified as a pilot, navigator or bombardier and go on to the schools of the Flying Training Command for training in these specialties.

Gordon DeBoer, of Camp Davis, N. C., reports that there are lots of WAACS at Camp Davis. In a recent letter to the News Gordon says, "Davis is where you can walk in mud up to your knees, with sand blowing in your face, get wet from the rain and sunburned all at the same time." That's really something, Gordon. Cpl. DeBoer is attending electrician's school at Camp Davis.

Allan Latham, MoMM 1/c writes from Richmond, Va., where he is attending specialized diesel school, "It sure means a lot to read the Antioch paper every week." Allan is still hoping to see Art Small, as we mentioned last week. Can't some of our readers come through with the necessary info?

John R. White, USMC, writes from the south Pacific that the New Zealand soldiers are a swell bunch of fellows with a sense of humor all their own. Jack also says that for once in his life he gets all the bananas and coconuts he wants to eat. He says that he has never been so busy in all his life. That's a boy, Jack.

William "Bill" Thompson, son of Ray Thompson of Allendale Boys school at Lake Villa, visited his father over the week-end. Bill is a Cadet in the Army Air force and is stationed at Monmouth, Ill. On Sunday afternoon Bill visited with his grandparents, Mr. and Mrs. George Kuhaupt.

During the past two weeks several new service men's names have been added, among them being: Pfc. Harold Wells, J. B. Fields, Jr., Naval officers training; Pvt. James H. Harvey; Ben Noble, MoMM 1/c, Coast Guard; Joseph M. Smith, Naval Officers Training School; Pvt. Tony B. Sciaccaro, and Private Richard O. Burnette.

Sgt. H. C. Witt, who has been in the service for the past two years and has seen plenty of service in Africa and other foreign countries, is home for a month's furlough with his wife, Hazel (Chinn) Witt.

Both Sgt. Harry L. Nelson and Pvt. Harold Nelson, sons of Mr. and Mrs. S. Boyer Nelson of Antioch, are overseas. The Nelsons received a cable recently from Harold stating that he had arrived safely.

Louis Koppen, U. S. N., who has seen active service with the Pacific (continued on page 5)

New Lion Officers Installed Monday

Ed. F. Vos, Who Was First President in 1937, Again Heads Club

At an impressive candlelight ceremony following a dinner meeting at Bob Hardman's resort Monday evening, Ed. F. Vos, who was the first president of the Antioch Lions club when it was organized in 1937, was installed as the new president to succeed George Wagner.

Oscar Haehmeister, a past president, acted as installing officer; and George Joedicke was installing marshal.

The new officers include Dan S. Boyer, first vice-president; William A. Rosing, second vice-president; Arthur Trieger, third vice-president; Attorney Edward C. Jacobs, secretary-treasurer; Dr. Frank Keefe, tall twister; Rudolph Eckert, lion-tamer. Directors are William M. Marks, Ben R. Burke, Dr. G. W. Jensen and R. E. Mann.

The outgoing officers were presented mementoes by the club in appreciation for their services during the past year, and Vos was also similarly honored.

Minor Cyclone Strikes N. E. Part of County

Lake area residents who saw the sky turn suddenly dark to the eastward Monday afternoon at 3 o'clock learned later that a miniature cyclone which struck the northern part of Lake county, particularly east of Highway 41, was responsible.

The high wind tore up trees, damaged electric and telephone wiring and poles, and was accompanied by a downpour which reached cloudburst proportions at Zion.

Garden and field crops in the vicinity of the Waukegan airport, Yorkhouse church and Wadsworth, were damaged. At the airport, planes were saved from damage when attendants saw the storm approaching and rushed the planes into the hangars. Two large oil drums were carried more than 300 feet at the Harry Sherman place.

The storm approached from the northwest, proceeded as far as the north end of Waukegan, and then swung north along the lake shore.

Chas. Kerry Heads New Bangs Disease Control Committee

Charles Kerry of Grayslake was elected chairman of the newly organized Lake County Bangs Disease Control committee at a meeting held in Grayslake this week. James Davis, Vocational Agriculture teacher at Wauconda High school, was made secretary of the committee which is composed of representatives of all organizations in the county which are interested in dairy production.

Losses of dairy cattle through infection of Bangs Disease in the county led to the formation of the Committee, which will formulate a Bangs Disease control program to help avoid a spread of the disease in the county.

George Fox, Supervisor of the Animal Industry of the State Department of Agriculture and a member of the Federal Bureau of Animal Industry, will meet with the committee in the near future to assist in working out the program.

80 Percent Of June Bond Quota Met In Township

Township Falls Short of Quota for First Time

Antioch residents fell short of the \$16,500 quota set for June, buying only \$13,200.21 in War Bonds during the month. Otto S. Klass, local War Bond chairman, told the News today that this is the first month the quota for Antioch township has not been exceeded since the inception of the War Bond campaign and urges all residents of the township to continue their buying in order that Antioch may make up the deficit of this month and keep the community "on top" so far as war bond purchases are concerned.

Six communities in the county were able to exceed their quotas by large percentages, among them being Deerfield with 122 per cent; Downey, where the veterans' hospital is located, had the best record for the month with 969 per cent; North Chicago 117 per cent; Wadsworth, 166 per cent, and Waukegan, 130 per cent.

The county as a whole came within 6 per cent of the \$885,700 quota, it was announced this week by James F. Stiles, Jr., general chairman of the Lake County War Savings staff. Quotas for July are slightly in excess of those for June with the total for the county set at \$905,200.00. Antioch's quota has been set at \$16,900 for July.

Lake Villa was also somewhat behind for the month of June, with only \$6,942.23 worth of bonds sold for 47.5 per cent of the quota. Fox Lake's purchases totalled \$3,550.91 for 72 per cent of their quota.

Blame for failure of the lake region communities to meet the figure set up is laid to the seasonal nature of a great deal of the business in the region and it is believed that money which had been going into war bonds was diverted to get business places ready for the great influx of summer visitors.

Antioch Milling Co. Enlists In "Food For Victory" Campaign

The Antioch Milling company has joined with 7,000 Purina merchants all over the middle west to promote a "Food for Victory" campaign. George Wagner, manager of the Milling company, told the News today that C. L. Kutil, vocational agriculture director at Antioch Township High school, had offered his services in the campaign and that a considerable number of farmers have already been contacted. The Milling company office will be closed on Wednesday afternoons during the program to allow employees to assist in field work connected with the campaign.

To Increase Production
Stress will be laid on increased production through new sanitation methods, proper feeding, and better farm practice throughout. The goal of the campaign is increased output enough so that each farm will provide enough food for 20 fighting men. The program has the sanction of the United States Dept. of Agriculture and Office of War Information, and was developed by Purina experts with the assistance of state and national agriculture authorities.

An honor roll will be placed in the office of the company listing names of all farmers co-operating. A movie, "Twenty Fighting Men," will be shown here in connection with the campaign. "Action Sheets" which list recommended conditions are furnished the field workers, who will inspect premises of farmers who enlist in the drive, and the sheets cover all phases of stock and poultry production. It is believed that the "Food for Victory" program will prove to be a boon to farmers as well as raising the farm output for war purposes.

Lake Region Unit of Home Bureau Will Entertain 4-H Girls

The newly organized Lake Region Unit of Home Bureau will entertain the Cedar Lake 4-H Girls club at the home of Mrs. Roy Crichton, Rt. 50, on Wednesday afternoon, July 21. Mrs. Helen Volk, Home Adviser, will give a lesson and demonstration of home canning methods, and a lunch will be served.

Farmers Say "Outlaw Third Term"

The majority of the nation's farmers are in favor of adding a law to the Constitution to prevent future presidents from serving more than two terms, according to the "Farmer Speaks" poll conducted for the July issue of Successful Farming magazine.

Asked the question, "Would you favor adding a law to the Constitution to prevent any president of the United States in the future from serving more than two terms?" Fifty-five percent of the farmers answered yes, 40 percent no, and 5 percent had no opinion to express on the subject.

Midwest farmers were 58 per cent for the affirmative, 38 per cent for the negative and 4 per cent with no opinion.

Franklin D. Roosevelt's history-smashing third term brought this comment from a Nebraska farm home-maker: "I hate to mention the word tradition, but I don't think it's right to depend on one man—the tendency is toward benevolent despotism."

Correction in Sight

A few powerful labor leaders have made monkeys out of the people of this country and our Congress. Their technique is to cause untold damage to the nation and the war effort, and when Congress is ready to crack down with legislation controlling their irresponsible acts, the labor bosses will ease up the pressure to block Congressional action.

The Administration has been largely responsible for this condition. It has failed to supply leadership

or national labor legislation, and its blanket opposition to correctives has invited hastily drawn remedies. How much longer labor leaders can defy government and intimidate Congress remains to be seen.

With any faults that the recently passed House anti-strike bill may have, it has some good provisions. These include the requirements for financial statements by unions, control of political contributions and the granting of statutory authority to the National War Labor Board. It has been the lack of such authority which enabled John L. Lewis to thumb his nose at the Board and treat it with contempt.

Commenting on the situation, the New York Times says: "If a measure similar to the House bill should now become a law, it would at least break the long-standing taboo against corrective labor legislation. Once this was done, the Administration and Congress should proceed to work out a more comprehensive and better balanced program."

If labor leaders are wise they will not provide another exhibition of defiance of government as witnessed in the last coal strike.

COSTLY RIDDANCE

Advocates of government deficits without limit should now take a good look at their theories in action. The only limit on deficits is the speed with which borrowed money can be spent.

There is no use kidding ourselves. The country has been rocked back, back on its heels, and it cannot all be blamed on the fact that most of productive effort is being shot away in the war. Skyrocketing public debt has wrecked normal laws of supply and demand and savings. The prospect of state socialism has been immeasurably increased as a result of the debt. Wasteful spenders have had their day.

And the people themselves are largely to blame—their hands were out for money taxed from the "other fellow."

Taxation must be as balanced as crop rotation is to soil fertility, if savings and wealth are preserved for a continuous tax crop. Winding the war and peace depends on both. Fumbling either agriculture or taxation means hunger and suffering, or worse.

TREVOR

Henry Schumacher, Waukegan, spent the past week with his mother and brother, John Schumacher.

Mr. and Mrs. William Hanneman, Burlington, were Sunday afternoon visitors at the home of the former's brother-in-law and sister, Mr. and Mrs. Joseph Smith.

Mr. and Mrs. Pete Petersen and Miss Evelyn Jensen, Waukegan, were Sunday visitors at the Alfred Dahl home.

Mr. and Mrs. Maurice Lux, Bristol, were Sunday evening callers on the latter's mother, Mrs. Otilia Schumacher.

Miss Lorraine Kerkman, Bassetts, spent over the week-end with her sister, Mrs. Henry Prange and family.

Harold Mickle, who returned from a business trip to Hardin, Mont., called on his sisters, Mrs. Champ Parham and Mrs. Kermit Schreck, Friday.

William Gallart, Salem, visited his daughter and husband, Mr. and Mrs. Lee Wilson, Sunday.

Miss Madeline Scler returned to Kenosha Sunday after spending a week's vacation with her parents. In the evening they visited Mrs. Scler's sister and husband, Mr. and Mrs. Nick Holz, of Chicago, at their summer home at Twin Lakes, and the latter's son and wife, Mr. and Mrs. Nick Holz, Jr., of Washington, D. C., who are here on a visit with his parents.

Mrs. Fred Nolte spent Friday with friends in Waukegan.

Billy Vopp, Mundelein, is spending a week's vacation with his cousin, Joe Fernandez, Jr.

Ralph Holmes, Cornwallis, Ore., is visiting his grandparents, Mr. and Mrs. Frank Hahn.

Over the week-end visitors at the Harry Dexter home were Sgt. and Mrs. Leroy Gutkowsky, Sarasota Air Base, Sarasota, Fla., Mr. and Mrs. George Donford and children, Salem, and Mr. and Mrs. George Dunford, Jr., and children, Paddock's Lake.

Mrs. Howard Grau, Evanston, was a recent visitor of Mrs. Charles Oetting.

Miss Charlotte Moran sponsored a personal shower at her home for her cousin, Miss Delores Moran, Friday. Those in attendance were Mrs. Mabel Peterson, Helen Peterson, Patricia Peterson, Mrs. Esther Curtis, Mrs. Alfred Peterson, Mrs. Wm. Lubnoski and Virginia Elvers.

Mr. and Mrs. Charley Runyard, of Volo, and Mrs. Edna Cable, of Lake Villa, were recent visitors of Mr. and Mrs. Daniel Longman.

Mrs. Allen Copper, daughter, Frances, and Mrs. Charles Oetting were callers at Sand Lake, Ill., Saturday.

Mr. and Mrs. Horace Nelson, Kenosha, visited Mr. and Mrs. John Rompeski Sunday.

Mrs. John Vopp and Billy, Mundelein, Mrs. George Keulman and children, Channah Lake, were Sunday vis-

Soviet Law.
Under Soviet law, any citizen who refuses work to a woman simply because she is a woman, is liable to punishment.

sons of their sister, Mrs. Joe Fernandez and family.

Mr. and Mrs. Alex Butner, Chicago, spent their vacation at the Henry Ernie cottage the past week.

Mrs. Arthur Bushing and house guest, Miss Doris Williams, Kenosha, called on Miss Sarah Patrick recently. On Sunday Mr. and Mrs. Russell Jones, Kenosha, called on Miss Patrick.

Mrs. Scherrer and daughter, Jody, New Munster, were visitors of her sister, Mrs. Henry Prange. On Sunday Mr. and Mrs. Prange visited at the Ed Prange home in Kenosha.

Henry Meyer, George's Lake, was a caller at the Charles Oetting home. Edward Kolberg is spending his

vacation with his grandmother, Mrs. Otilia Schumacher.

Lester Diedrich, Millburn, was a caller at the Allen home Tuesday.

Mr. and Mrs. Joseph Smith and Mr. and Mrs. Fred Forster attended funeral services of August J. Baethke Thursday at the First Reformed Evangelical Lutheran church, Forest Park.

Mr. and Mrs. Albert Weinholz, Pikeville, were callers in Trevor Wednesday.

Last rites were held for Gilbert Hartnell of Kenosha, Thursday afternoon at Liberty Corners cemetery.

Mr. and Mrs. Charles Oetting were Antioch visitors Thursday.

LAKE VILLA

Lake Villa Community Church Methodist
Rev. John DeVries, Pastor
Sunday School—10 A. M.
Worship Service—11 A. M.
The Woman's Society of Christian Service will hold its annual summer sale of rugs, aprons, fancy work and quilts at the Village hall on Thursday afternoon and evening of July 29, and a card party will be held in conjunction. Come and bring your friends.

You are invited to attend open house at the parsonage on Sunday evening, July 19 to welcome the new pastor, Rev. John DeVries and wife, into our community.

The W. S. C. S. will meet Wednesday afternoon, July 21, with Mrs. William Walker at her home for the next regular meeting. The last meeting at Mrs. Tweed's home was very well attended and we hope for as good an attendance at Mrs. Walker's home.

Mr. and Mrs. George Mitchell of Chicago were guests of Mrs. James Kerr at her home last Sunday. Edgar Kerr, his wife and son of Bloomington, visited their mother a few days last week.

P. S. Daniels of Portland, Oregon, came quite unexpectedly last Thursday evening and is visiting old friends and acquaintances here. He and his family moved to Portland more than 20 years ago after several years residence here. They were very active in church work.

Leonard Matison who has spent several months in California, returned to his home here last week, and his family will return to California with him, perhaps to make their home.

Mr. and Mrs. Fred Nielsen and family have moved into their new home on Cedar Lake road near Cedar lake.

Mr. and Mrs. Russell Nickerson and Ronnie met relatives from Elizabeth, Ill., at the half way and spent Sunday together. Ronnie went home with his cousin to visit a few weeks.

Mrs. Clarence Blumenschein spent Friday in Chicago.

Mrs. Harriet Ballenger visited relatives in Chicago over Saturday and Sunday.

Mr. and Mrs. James Connell who have been in the East where Mr. Connell has been employed, came to Lake Villa early this week to spend

a few weeks at their home here and to visit Mrs. Connell's brother, William Weber, also her son, Raymond Hussey.

Mr. and Mrs. Frank Wood are moving to a cottage at Allendale Farm where Mr. Wood is employed as printer.

Cedar Lake 4-H Club girls met Tuesday afternoon with Colleen Ireland at her home and Joan Gist gave a demonstration on how to apply a figure 8 bandage. Magda McCall

read an article on how to treat burns. Kathleen Adler gave a talk on safety in canned foods and also gave a demonstration on how to lift in the best advantage. Mary Ann Poulsen gave a lesson in manuring. Our lesson was on pressure cooker canning and we canned beets and green beans. Refreshments were served by the hostess, Colleen Ireland. The girls will meet next week with their leader, Mrs. Crichton. Joan Gist, reporter.

Ask Yourself This Question...

"WHY DO MORE PEOPLE GO TO CHEVROLET DEALERS FOR SERVICE

than to any other dealer organization?"

...and you'll find yourself supplying these answers:

Because Chevrolet Dealers ARE SKILLED IN SERVICING ALL MAKES OF CARS

Because Chevrolet Dealers EMPLOY TRAINED MECHANICS

Because Chevrolet Dealers USE QUALITY PARTS

Because Chevrolet Dealers GIVE GOOD SERVICE

For years Chevrolet dealers have had more trade-ins than any other dealer organization. . . . Therefore, they have had broader experience in servicing all makes and models. . . . They're "America's Service Specialists." . . . They're the men to see when you want good, dependable service on your car!

*** BUY U. S. WAR BONDS AND STAMPS ***

CHEVROLET DEALERS HAVE DEDICATED THEMSELVES TO THIS TASK:

"SAVE THE WHEELS THAT SERVE AMERICA"

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for July 18

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education used by permission.

GOD ENCOURAGES MOSES

LESSON TEXT—Exodus 3:13-16; 4:10-17.
GOLDEN TEXT—Exodus 3:12. Certainly I will be with thee.—Exodus 3:12.

Encouragement is something much needed, and not too often given. The word means to put some new thing into the heart of another, that is, to hear and assure him, especially in the bearing of a heavy responsibility.

Moses, in all probability the world's greatest military and national leader, was about to lead his people out from under the mighty hand of Pharaoh. His final preparation for that epochal deed and all the years to follow was a personal meeting with God.

Possibly it was the mistake Moses had made and which caused him to be sent into the back of the desert, that now caused him to move with—

I. Understandable Caution (Exod. 3:13).

There is something remarkably fine about real humility. It commands itself to our thinking as the proper attitude of a mortal being, particularly in the face of spiritual responsibility.

Neither God nor man dares entrust a high and difficult commission to foolish man who brusquely "rushes in where angels fear to tread." The fact that one feels fully and unhesitatingly qualified to take over such a responsibility is almost a certain indication that he is not the man to assume it.

Moses' request for God's backing must have been acceptable to Him, for He gave Moses—

II. Unlimited Authority (3:14-16).

Moses went as God's messenger. He was authorized to put all the majesty and power of the Infinite One behind his words and acts.

The ambassador must have credentials. God's representative has them. When "they shall say"—what an important and difficult situation that creates. The one who speaks for God must expect not only the scornful bitterness of God's enemies, but also the unbelieving questions of those whom he seeks to serve.

"What shall I say?" asks Moses, and God answers that he may say that "I AM" had sent him. This name of God reveals Him as the eternal, independent, self-sufficient, self-existent, immutable, personal Being. Consider, Christian brethren, whose we are and whom we serve.

But Moses seems to have been unable to see beyond his own human infirmity even in the light of such a glorious revelation, supplemented as it was by miraculous powers, and we find him showing an—

III. Unjustified Humility (4:10-13).

Perhaps we should not call this humility at all, for in one so divinely called and encouraged it was an act of unbelief and almost impertinence.

When God calls a man He knows his limitations. Why then should one plead them as an excuse for not serving? The excuse of Moses that he was not a fluent speaker has been the standby of unwilling workers all through the ages. When asked to lead a prayer meeting, teach a Sunday school class, conduct a young people's meeting, thousands upon thousands have lamely thus excused themselves and missed a blessing.

The perfect answer of God (v. 11) merits attention. God made your mouth and mine. He gives us the power of speech. He asks not the eloquence of polished rhetorical phrases, or the flights of man's imagination. He wants but the incomparable eloquence of His own words on our lips.

No man should think too highly of himself, but let him beware lest he think too lowly about God. We are not sufficient for the opportunity. But God is more than sufficient.

Having called Moses, God saw to it that Moses went on with His work, even though now He had to call in Moses' older brother to help him. It was, in fact, an—

IV. Unnecessary Substitution (4:14-17).

Loving and patient is our God, but mark it well, there is a boundary line to that patience. Moses went too far in his needless humility, and really reflected on the ability of God. God promptly substituted Aaron as the spokesman.

Gracious was He in thus providing a helper for Moses. But one wonders what Moses missed of blessing and power because of his slowness of heart. To decline the labor and the responsibility of service for God means loss far greater than we may ever know.

God's dealings with Moses speak eloquently to us of His willingness to enable and use a man who lacked some of the gifts for leadership. Let none of us be like Moses and become involved in needless worry about our gifts, and forget God's purpose and enabling power. When God calls, our gifts are not the controlling factor; in fact, they are not a great factor at all. The question then becomes, Is God able? Let us trust and obey Him.

Shelters for Turkeys On Range Easily Built

Dead Birds Mean Large
Loss of Scarce Grain

Range shelters for growing turkeys protect them against the weather, marauding animals, and to some extent from thieves, says the department of agriculture. By providing protection for their birds, turkey growers can make a two-way saving—the turkeys themselves and the feed they have consumed.

Whenever a turkey dies, there is a loss of a substantial quantity of feed, including protein feed, which is now more difficult to obtain than in normal times. A 10-week-old turkey weighing four pounds usually has eaten about nine pounds of feed; a bird 18 weeks old and weighing 12 pounds represents about 33 pounds of feed; and a turkey 30 weeks old and ready for market weighs about 20 pounds and has eaten about 85 pounds of feed. All these quantities of feed are in addition to what the turkeys get by foraging.

To help conserve investments of this kind, the department's engineers have designed several shelters that are both substantial and inexpensive. Some of the structures are

Turkeys on range may not develop into such handsome specimens unless protected when young.

readily portable; other heavier ones are intended for only occasional moving. They are adapted to the needs of flocks of various sizes, and all of them have proved satisfactory in actual use.

The plans include detailed drawings for the construction of feeders and roosts and the arrangement of yards. The general design of the shelters calls for light roofs, with wire netting or slats on one or more sides, depending upon the climate. The capacity of each shelter is readily calculated from the roosting space by allowing 10 to 18 inches per bird, depending upon their size. The shelters are described and illustrated in Circular A.H.D. No. 48, "Plans for Turkey Range Shelters," available from the Department of Agriculture, Washington, D. C.

Agriculture in Industry

By FLORENCE C. WEED

Uses of Rye

"The grain of poverty" is the name given to rye because it can be produced on poor soils which would not be suitable for wheat or corn. In this country, it is considered a minor grain because only one bushel of rye is grown for every ten of wheat. But in the northern countries of Europe where wheat does not grow well, rye fills the breadbasket. No one need pity the people who live on this bread since black bread and pumpnickel is much richer in protein than that made from refined white wheat flour.

Industrially, rye grain is important in the manufacture of distilled alcoholic beverages and ethyl alcohol. Ground rye and rye bran are marketed in stock feed. Rye straw is used somewhat in strawboard and straw hats.

The north central part of the United States and Pennsylvania produces most of the rye crop. From two to four million acres are grown annually. The price has varied from 81 cents to 35 cents a bushel, so that the annual farm income from rye also varies from 12 to 34 million dollars.

Potato Sprays

Apply either dust or spray when potatoes are 3 to 5 inches high. Repeat at 7- to 10-day intervals as long as the foliage remains green. Apply so leaves and stems are thoroughly covered throughout the growing season.

For dusting: Use copper-lime dust (1 part monohydrated copper sulfate, 1 part lead or calcium arsenate, 3 parts hydrated lime).

For spraying: Use 4-50 bordeaux mixture with lead arsenate.

Troops End Detroit Race Riots

Thirty-one persons were killed and 700 were injured during race rioting in Detroit culminated only by the presence of army troops. These soldiers are shown marching through the trouble zone. Detroit war plant schedules were seriously disrupted and industrial leaders feared that deliveries of planes, tanks, guns, and other war materials would be drastically reduced because of absenteeism. Arrests during the riots totaled 1,300 persons. The entire Detroit police department was engaged in questioning them to fix responsibility for crimes. Representative Martin Dies, chairman of the committee on un-American activities, announced a congressional inquiry of the rioting.

Chinese Harass Japs on Salween Front

A three-pronged Japanese drive aimed at the heart of China's interior was stymied by valiant Chinese soldiers who, although they were outnumbered, fought the invader to a standstill and forced him to retreat. Much of the action raged along the Salween river where the Chinese troops continue to harass the Japanese force which originally numbered 50,000.

Northern Troops Fight Cold and Axis

Soldiers who are stationed on our far northern fronts have to fight the cold as well as the Axis. The man being carried to the jeep was wounded and is suffering from frozen feet. The scene is the Aleutian island of Adak during the invasion of Japanese positions. Note the American flag flying from an improvised stand on the combat ear.

Alpine Practice

When American troops are ready to control Alpine mountain passes, the army's mountain climbing troops will be equal to the job as a result of training at Camp Carson, Colo. This climber is on a jagged side of one of the Rocky mountains.

Iceland Prisoner

The first Nazi soldier captured in Iceland is Sergeant Manfrak, an aviator, who bailed out of his plane after it was hit by U. S. army air force fighters. He is shown sitting sullenly before his half-finished meal in army intelligence headquarters in Iceland.

WILMOT

Mrs. Herman Frank and children spent Saturday in Kenosha with Mrs. Oliver Balza. In the afternoon they attended a picnic at Petrifying Springs.

Mr. and Mrs. Robert Schmidt, stopped in Wilmot on Saturday to spend the weekend with his sister and family. Mr. and Mrs. William Wertz. They were en route to their home in Seattle, Wash., from Kansas, where Mr. Schmidt had spent three months in a government position.

Mr. and Mrs. Herman Frank and family, Mrs. William Harm and John Grabow spent Sunday afternoon at Lake Geneva with Mr. and Mrs. Henry Harm.

Mrs. Chris Ehler of Silver Lake was a Sunday dinner guest at the home of Mr. and Mrs. Fred Albrecht. Other visitors were Mr. and Mrs. John Hasselman and daughters, Mrs. Milly Darby and Mrs. Bertha Richards, Mrs. Don Schmalzfeldt, Miss Elinor Ehler of Silver Lake, Miss Vivian Richards and Mrs. Florence Richards of Salem, Mrs. Frank Albrecht and Mrs. Ben Kunz and children of Twin Lakes. Miss Evelyn Hasselman of Kenosha is spending two weeks at the Fred Albrecht home.

Mr. and Mrs. Melvin Harm and daughter spent Sunday evening with Mrs. William Harm.

Miss Jayne Pastell of Winthrop Harbor, Ill., is spending several days visiting at the home of her cousin, Shirley Jean Madden.

Visitors at the Herbert Sarbacher home on Sunday included Mr. and Mrs. George West of Kenosha, Mr. and Mrs. John R. West and Roy Pastell of Zion and Miss Gloria Mae Pastell of Winthrop Harbor, Ill. Mrs. Laura Pastell of Winthrop Harbor, is spending several days with her sister, Mrs. Herbert Sarbacher.

Pfc. Arthur Winn, home on a furlough from Keesler, Miss., spent several days of his leave visiting friends in Wilmot.

The Rev. and Mrs. R. P. Otto and children were Milwaukee business callers and visitors on Friday.

Mr. and Mrs. Gust Neumann and daughters attended a family picnic dinner held in the woods adjoining the Gust Neumann farm near Burlington on Sunday. The gathering was held in honor of the 38th wedding anniversary of Mr. and Mrs. Gust Neumann of Burlington. About 175 relatives were present to celebrate the occasion.

Mr. and Mrs. George Reimann of Flint, Mich., made a surprise visit at the home of the former's sister and family, Mr. and Mrs. Gust Neumann, last week.

Mrs. John Rasch of Lily Lake and Miss Hannah Neumann of Fox River visited at the Gust Neumann home on Saturday evening.

Attire Shines in Dark

Luminous paint sprayed on stockings, belts, gloves, handbags and hats, and a luminous fabric treated with a special chemical that glows for 20 hours and regains its luminosity after a brief exposure to daylight or electric light, are among the wartime novelties produced as the result of dimouts, brownouts and blackouts. Some startling effects may be produced in darkness, such as seeing only a lady's legs and hat coming down the street.

Clean Metal Before Repainting

All grease, oil, rust or corrosion should be carefully cleaned from metal before repainting or revarnishing. If rusted or corroded, the metal should be cleaned down to a bright surface with fine sandpaper or steel wool. Any greasy or oily film should be completely removed by the use of a good grease solvent, and the metal then thoroughly rinsed and dried before paint or varnish is applied.

Controls Potato Cracking

Where potatoes have cracked badly in the field in past years use 10 pounds of borax per acre broadcast before planting. Side-dressing the crop with borax has not proven satisfactory. If the cracking has not been serious, five pounds per acre may prove sufficient. Large amounts of borax, say 50 pounds per acre, will damage the crop.

Aids 88 Liberty Ships

Limiting the quantity of steel used in bed springs is resulting in an annual saving in steel sufficient to meet the steel requirements for 88 Liberty ships.

Attributed to Wars

In most European countries females outnumber males, while in non-European countries the opposite is true.

MILLBURN

William Hubbell Pope, a retired lawyer, died suddenly at his farm home at Millburn Saturday afternoon. Mr. Pope was born near Millburn 85 years ago and since his retirement had spent most of the past 30 years here, until last November, when he moved to 660 Ridge ave., Evanston. He leaves his widow, Lucy M. Pope, and two daughters, Mrs. C. P. Whiffie and Miss Barbara Pope, one brother, Henry Pope, and a sister, Miss Mary A. Pope. Funeral services were held in Evanston Monday afternoon with interment in Millburn cemetery.

Mrs. Annie Hoffman spent Sunday with Mr. and Mrs. E. Bartholomew at Wedge's Corners.

Donna and Barbara Kane of Diamond Lake spent Sunday with their grandparents, Mr. and Mrs. J. S. Denman.

Miss Ithule Gillings of Morris, Ill., spent several days at the W. M. Bonner and O. L. Hollenbeck homes.

Twenty-eight young people of the C. E. society enjoyed a picnic in Denman's woods Sunday afternoon.

Mr. and Mrs. Haydn Grant and family of Edison Park spent several days with Mr. and Mrs. O. L. Hollenbeck.

Mr. and Mrs. Hibbard Ames of Evanston called at the W. M. Bonner home Sunday afternoon.

Mr. and Mrs. William Huth spent Sunday with relatives at Madison, Wis.

Mr. and Mrs. Kenneth Crowley of Libertyville spent Thursday evening at the Frank Edwards home.

Discover Resin Fossils

Recent discoveries of deposits of fossil resins believed to be sufficient to meet the nation's needs for many years have been recently found in coal fields of Colorado, New Mexico, Utah and the state of Washington. Seams 14 feet thick in which resins constitute 5 per cent of the coal have been found between Castlegate and Sallina canyon, Utah, a distance of 70 miles. It is estimated that in 100 tons of coal there are five tons of resins.

Wooden Garbage Can

A new type of garbage can has been made of Douglas fir in place of metal, painted on the outside with waterproof paint and on the inside with acid-proof paint. The new container is said to be satisfactory for either wet or dry garbage. It has a heavy wooden lid designed to render the container dog proof.

Protect From Overloads

Motors on milk coolers, pumps, and other automatic machines that operate without an attendant should be protected from overloads or low voltage by an overload protective device.

DON'T LET DREADED MASTITIS

ROB YOU OF YOUR PROFITS

About 90% of all Mastitis, or Garget, is caused by Streptococcus agalactiae. The new discovery, Beebe G-Lac (Lythritrin) stops the action of Streptococcus agalactiae. If Mastitis due to this microbe, is cutting into the milk production of your best dairy cows, act now! Get Beebe G-Lac! Easy to inject. Goes right to work. Don't let Mastitis rob you of your profits. Get Beebe G-Lac today. Ask about our special milk testing service.

SOCIETY EVENTS

4-H GIRLS INVITED TO HOME BUREAU MEETING

Members of the Antioch 4-H Girls' club and their mothers are being invited to attend a meeting of the Home Bureau July 21 at the home of Mrs. Winship. Talks and a demonstration will be given.

A demonstration of first aid methods was given by Virginia Ostrander and Verna May Kufalk at the club's last meeting held in the home of Miss Buschman.

Margaret Anderson gave a demonstration of good posture.

TWO COUPLES WED HERE SATURDAY

Two couples were united in marriage at civil ceremonies at which Justice of the Peace J. C. James officiated Saturday, July 10. They were Ralph E. Christman, Burlington, Wis., and Edith M. Perry of Racine, and Jefferson A. Willis and Aurilla O. Schmidt, both of Waukegan.

CHICAGO RED CROSS UNIT HOLDS MEETING

Members of the Golden Eagle Red Cross unit of Chicago enjoyed an outing at the homes of two of the members, Clara Johnson and Bessie MacKenzie, Rock Lake Highlands. A dinner at Hovens' Colony House, and swimming were enjoyed. This unit has been making surgical dressings for the Red Cross in Chicago.

HOSTESS TO PINOCCHIO CLUB

Mrs. Richard Chapman, Sr., was hostess to her pinocchio club at her home at Indian Point Tuesday afternoon. Luncheon was served at 1 o'clock. Following the luncheon several games of pinocchio were played.

Mr. and Mrs. Art C. Lubkeman and family, Mrs. Lena Grube and Mr. and Mrs. Ed. Stonich of Chicago visited at the Wisconsin Dells last Thursday and Friday.

Don't forget the doughnut and bakery sale, sponsored by members of the Eastern Star Officers' club, Saturday, July 17, at the News office.

Don't forget the doughnut and bakery sale, sponsored by members of the Eastern Star Officers' club, Saturday, July 17, at the News office.

Don't forget the doughnut and bakery sale, sponsored by members of the Eastern Star Officers' club, Saturday, July 17, at the News office.

St. Mary's Guild, of St. Ignace's Episcopal church, will hold its regular meeting at the home of Mrs. Lester Nelson, Wednesday, July 21, at 1:30 o'clock. Each member may bring a guest.

A regular meeting of the Royal Neighbor Officers' club will be held Friday evening in the home of Mrs. Lester Nelson, with Mrs. Burt Anderson, president of the club, as co-hostess.

Philip W. Collins Is Director of New State Department

Governor Dwight H. Green has appointed Philip W. Collins of Chicago as director of the new State Department of Revenue, which came into official existence July 1. The bill creating the new department was introduced in the General Assembly after the state administration conducted an extensive survey of methods to improve the collection and expenditure of tax money.

Handling all major revenues except motor license fees and funds contributed by the federal government, the Department of Revenue will collect more than two-thirds of all money coming into the state treasury. It will also take over the work formerly handled by the state tax commission, which was abolished by the act creating the new department.

Among the sources of revenue henceforth to be administered by the Department of Revenue, with the estimated receipts during the next two years, as compared to collections for the last biennium, are: the retailers' occupation (sales) tax, \$124,000,000 as against \$166,000,000; the liquor gallonage tax, \$40,000,000 as against \$42,000,000 and the motor fuel tax, \$40,000,000 as against \$80,000,000.

Ravenscroft Cow Makes New Production Record

Brattleboro, Vt., July 10—A registered Holstein-Friesian cow in the dairy herd owned by E. H. Ravenscroft, Antioch, has recently completed a 317-day production record of 667 pounds of butterfat and 16,437 pounds of milk, the Holstein-Friesian Association of America announces. This is more than 312 times the production of the average dairy cow in the nation.

Her official name is Hark Rosebud Ormsby of VV. She was milked three times daily and was 3 years, 11 months of age when she began her test period.

Testing was supervised by the University of Illinois in co-operation with the Holstein-Friesian association of America.

METHODIST CHURCH
Antioch, Illinois
Both the Worship Service and the Church School reached a new high in attendance last Sunday. This was due, in part, to our summer visitors from the lakes. Among these was Chaplain W. M. Lewis, stationed at Granada, Miss., who is spending a brief furlough at the home of his father-in-law on Lake Shangri La. We are always glad to welcome these Service men to the services and other activities of our church.

Next Sunday, July 18, we will celebrate the Sacrament of the Lord's Supper. While men and women are serving their country with unstinted loyalty and sacrifice, we must not forget Him who made the supreme sacrifice on Calvary that all men might live. Invite your friends to join in this service.

Warren C. Henslee, Minister.

Prices Rise 100 Per Cent
In 1940, retail food prices increased 100 per cent in Chungking, China's capital, leading to food control measures by the Chinese government.

Personals

Dr. R. D. Williams, who has been at Victory Memorial hospital for a general check-up, is reported to be feeling much improved.

Lake County Salon, 8 & 40, will be represented at the Illinois state Legion convention in Chicago, August 27, 28 and 29, it was voted at a meeting held in the home of Mrs. William Jacob, Gages Lake, Wednesday. The September meeting will be held at the home of Mrs. George Nielsen, Fox Lake.

Mr. and Mrs. Piccolo, of 605 N. Taylor street, Chicago, who have been at their summer home at Grass Lake for the past two weeks, were host and hostesses to Mr. and Mrs. Smith and four members of the U. S. Marine force at a spaghetti dinner Sunday.

Mr. and Mrs. Ted Dittmer and family, Evanston, spent a week's vacation at their summer home at Grass Lake. They had as house guests during that time Mr. and Mrs. William Casey and family of Chicago.

Mr. and Mrs. Duane Baldwin and daughter, Nancy, of Hampshire, Ill., were Sunday guests of Mr. and Mrs. Frank Rungard at their home at Channel Lake.

Miss Irene Chian returned home Saturday, after spending the past two weeks with Mrs. Alice Regan and son, William Regan, at Wichita, Kansas.

Miss Mary Brunner, librarian of North Chicago library, is the guest this week of Miss Adelle Miller at the home of Mrs. Mollie Somerville.

Mrs. Frank Kanlick, former resident of Antioch, now living in Chicago, was a caller at the home of Mrs. Mollie Somerville, Monday morning.

A regular meeting of the Order of Eastern Star was held at the Masonic hall Thursday evening, with Mrs. C. E. Hennings and Joseph Horton presiding. Following the meeting cards were played and luncheon served.

Mrs. C. E. Hennings, Mrs. Elmer Hunter, Mrs. Gus Carlson, Mrs. Elizabeth Davis, Mrs. Harriet Davis, Mrs. F. H. Sommer and Joseph Horton attended the Order of Eastern Star meeting at Richmond chapter Monday evening. Mrs. Hennings and Mr. Horton served as officers.

What You Buy With WAR BONDS

Rural Electrification has made great strides during the past ten years, bringing to thousands of farm homes the conveniences of their city brothers. Today, however, copper wiring, fixtures—all the materials which are required for rural electrification—are "out" for the duration.

The farmers of the nation, however, can start now buying rural electrification and all the equipment which goes with it through purchase of War Bonds. Your War Bonds today will buy rural electrification tomorrow and give you back \$1 for every \$3 you invest.

Tuberculosis Clinics to Be Discontinued Until August 2, 1943

The free chest clinics sponsored by the Lake County Tuberculosis Association with the cooperation of the Medical staff of the Lake County Tuberculosis Sanatorium will not be held at the Sanatorium at the usual times during the next two weeks. The chest clinic service will be resumed on the usual days, Monday, Wednesday and Friday, after August 2. The temporary discontinuation is necessary to allow vacations for staff members and redecoration of clinic rooms.

"And this be our motto"

"PRAISE the power that hath made and preserved us a nation. Then conquer we must, for our cause it is just. And this be our motto: 'In God is our trust!'"

Through the ages singing has been instrumental in arousing courage and uplifting faith. Today amidst world turbulence people are being urged to sing more. Individually and collectively, therefore, they are participating fervently and frequently in the singing of their national anthems.

The deep spiritual significance of the above inspiring declaration in the last verse of the national anthem of the United States of America is worthy of thoughtful meditation at this time, and serves to remind us of the wisdom of those words (Proverbs 3:5), "Trust in the Lord with all thine heart; and lean not unto thine own understanding."

All through both the Old and the New Testament are accounts of victories and rejoicings by faithful ones who put their trust in God when in need of a sustaining power greater than their own limited human abilities. Their faith that righteousness must prevail, and that their strength was of God, was their assurance of ultimate victory.

Christ Jesus taught his disciples and followers the importance of recognizing and acclaiming God as Father of all. His earthly ministry was entirely devoted to urging all men to renew faith in God, to trust Him, and to seek an understanding of Him, and he proved through his healing work that this understanding was vitally necessary to their joy and happiness.

The following elucidating definition of God is given on page 587 of the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the Discoverer and Founder of Christian Science: "The great I AM; the all-knowing, all-seeing, all-acting, all-wise, all-loving, and eternal; Principle; Mind; Soul; Spirit; Life; Truth; Love; all substance; intelligence."

God is Spirit. He is the only cause and creator, and man, created in His image and likeness, therefore is spiritual. Man is not material, mortal; he reflects Spirit and is immortal.

Knowing God as Principle enables us to discern that the real man in God's image is righteous in all his actions. Man, the perfect idea of God, divine Love, is loving and lovable, incapable of either hate or fear. Because God is good and has created everything good, man, His reflection, is the manifestation of good. The understanding of the allness of good eliminates any opposite belief, and demonstrates the nothingness and unreality of evil and its claims to power.

As we intelligently place more trust in God's ever-presence, His om-

nipotent power, and His plan and purpose for His creation, our happiness and success are ensured. We soon find ourselves expressing more harmony in our daily affairs; confusion gives way to calm and peace; intolerance is replaced by tolerance; and we awaken to a greater sense of love and unselfishness. We gain no understanding of "rent security" and substance, proving that "they that trust in the Lord shall be as mount Zion, which cannot be removed, but abideth for ever."

As we strive to consecrate our thinking to good, to glorify God in all our activities, and trust His unerring guidance, we shall be able to prove true the words of Mrs. Eddy (Science and Health, p. 411): "Sleep by sleep will those who trust Him find that 'God is our refuge and strength,' a very present help in trouble."

—The Christian Science Monitor.

War Time FEEDING TIPS

Books Offered For Back Yard Food Lot

Thousands of pounds of much-needed food might be released to our fighting forces and to Lease-Lend, believes our local Purina Merchant, if citizens of this community utilized the food-growing facilities of their own back yards. "There's enough ground behind the average kitchen door, he believes, to produce all the vegetables, broilers, domestic rabbit meat, goat's milk, etc., any family can eat. In many back yards enough more might be produced to bring in additional family income, a fair share of which might go for the purchase of more war stamps and bonds."

All these food-growing projects can be attended to in leisure time, at small expense, and with little or no previous experience, he adds. And they render practical independence from present or future food rationing.

"That's the way our fathers and grandfathers fed their families," states the Purina Dealer, "and to win this war and send all the food to our soldiers and allies needed to win the war, that's the way we'll have to feed our own families too!"

If you wish to enroll your own back yard in the "Home Food Lot" Program now being sponsored by this paper in cooperation with the Purina Merchant, we suggest you call at the "Store With the Checkboard Sign" for the various booklets on how to start a small broiler plant, rabbitry, or goat dairy.

Make Stronger Harrow Shoes

Many farmers objecting to the manufactured harrow shoes because they do not last long enough, either snake heavier ones at the farm shop or have them made at the blacksmith shop. Bar iron three-eighths or one-half inch thick and 1½ inches wide is commonly used.

WATER ALONE IS NOT ENOUGH FOR HORSES AND MULES

Urbana, Ill., July 15. "Water alone is not enough for horses and mules working in the blazing summer sun—they also require salt," says E. T. Toblins, livestock extension specialist, University of Illinois College of Agriculture.

A working horse must sweat profusely in hot weather to keep cool, but the sweat must be replaced if he is to continue work. Sweat consists principally of water, but contains a significant amount of salt as well as minute and probably unimportant amounts of many other substances. As far as is known, the water and salt are the only ones lost in sufficient quantity to require special consideration.

Salt is highly important for maintaining the balance between various constituents and between the fluids and solids of the body. The chief importance of salt is that it helps maintain the water balance in body tissues.

Men who see to it that their work animals have all the salt they want and water their horses and mules every hour while working in the field during hot weather do not lose their animals.

State Expenses for June Total \$20,201,176.02

Cash disbursements for state expenses in the month of June amounted to \$20,201,176.02 and required the writing of 254,507 warrants, according to a report sent out this week by Arthur C. Lueder, state auditor of public accounts.

Over fourteen millions of this amount were expended for regular operating expenses of the state government. Gas tax refunds paid to users of gasoline for non-highway purposes amounted to \$307,434.17, and Old Age pensions cost the taxpayers over four million dollars.

The Observer

We ain't gonna hoe the weeds in our Victory garden no more. We're gonna cut 'em off with a lawn mower. But at that, this here new Victory gardening sure has given plenty of folks some mighty healthy exercise. And it has produced some vegetables, too.

oOo

If you're a middle-aged pedestrian, better watch your step! Surveys recently completed in New Jersey and Minnesota show that a great percentage of pedestrian fatalities are among the middle aged. . . . children of school age and under 15 have been taught safety in the classrooms. . . . and by activity of safety patrols boast a far better record than the older. . . . The survey also showed that while traffic accidents are being reduced through slower speeds and reduced travel, pedestrian fatalities are on the rise. . . . While traffic deaths have dropped from 174 to 103, a decrease of 41 per cent—69 in every 100 traffic deaths have been pedestrians. During the same period a year ago only 52 of every 100 traffic fatalities were pedestrians. . . . watch your step!

oOo

Motorists in Mexico are now allowed the use of their private automobiles only six days a week. . . . motorists may choose a sticker of one of five different colors, each representing a day of the week, Saturday and Sunday excepted. . . . on the day his color is banned from the highways he may not use his car. . . . owners of hay burners, however, may operate them at any time.

oOo

According to latest dope from the Chicago Motor club, holders of "A" stickers may not expect new tires for their cars until the middle of 1944. . . . We suspect that many weird and wonderful things will be done with thin casings to keep them going until that time.

oOo

Now that Old Sol is doing his best work of the year and will be beaming with increased intensity for the next six weeks or so, we shudder to think of what is going to happen to the large areas of exposed skin seen so often lately around the lakes. . . . Despite warnings of all kinds each summer a great many persons are painfully burned. . . . Victory gardeners and bathers should be especially careful as sunburn is the most common of all summer hazards and the serious consequences of a severe case is not to be taken lightly. While the ultra-violet rays of the sun help to fight certain infections, these health-giving qualities are negated by undue exposure. . . . Many persons will, in spite of repeated warnings, try to acquire a complete coat of tan on the first day and the result will be painful. . . . In severe cases medical aid should be called in at the earliest possible moment, as sunburn is more dangerous than most people realize.

oOo

The forty-two high school boys who were placed on farms in the county in connection with the drive for additional farm labor this spring are reported to be doing excellent work. . . . Farm Adviser Ray T. Nicholas asks that any additional high school boys who wish to aid in the drive for increased war time food production get in touch with him for placement in a farm job.

oOo

The govt. is now permitting the sending of photographs of infants by V-mail to fathers who are serving their country overseas. Showing that even the brass hats aren't proof against a baby's wiles.

oOo

We bin hearin' a lotta jokes about the WAACS 'n' the WAVES, but an old time Navy man said to us the other day, "Well, you gotta admit they sure have the boys digging in to keep up with them, to say nothing of keeping ahead of them!" So-o mebbe the gals ain't doin' so bad after all.

oOo

Chiggers, infinitesimal insects, lurking in the grass, are being blamed for some of the scratching of ankles that is being done about these here parts these here now days. Folks who go berry-picking are among the chief sufferers, 'tis said.

To women who have said "I WISH I WERE A MAN SO I COULD FIGHT!"

NOW YOU CAN JOIN THE NAVY

Serve Your Country in the WAVES or the SPARS

YOU'VE been wanting to do something BIG for your country, to help win the war . . . and this is your chance! The country NEEDS women in the Navy — and it needs them at once. Navy manpower must be supplemented with Navy womanpower. Now you have the opportunity to serve your country in non-combatant activity—alongside the Navy armed forces and the Navy working forces.

What a thrill it is to be able to say, "I'M IN THE NAVY!" You can rightfully be proud to be serving your country in the greatest Navy on earth. Remember, too, that the Government will make it well worth your while to furnish your services in this emergency. And after the war is won, you will come out of service TRAINED for a profitable civilian specialty or trade.

HERE IS WHAT YOU GET:

An income valued at \$150.00 a month to start, including \$50.00 base pay, CASH, plus expenses beginning the day you report for active duty. Base pay can advance to \$126.00 cash a month, plus allowances.

College-like life while in training. Good food, comfortable quarters, the finest medical and dental care.

\$200 worth of clothes free. This includes the smart Navy uniform.

Training for a trade or profession which may be continued in civilian life after the war.

Low cost insurance. Allowances to dependents. Privileges of free mail. Reduced rates on transportation, movie and theater tickets, where granted. Benefits from USO, Red Cross and Navy Relief.

Opportunity for promotions and raise in pay, and a chance to become an officer. Plus the thrill of being a part of the U. S. Navy and doing a job to win the war.

WHAT ARE THE WAVES AND THE SPARS?

The WAVES is an organization of women whose job is to serve with Navy men at shore stations. The SPARS is the women's division of the Coast Guard, which is itself a part of the NAVY. Neither WAVES nor SPARS are required to serve outside the continental limits of the United States.

THE REQUIREMENTS ARE SIMPLE

For enlisted status, the general requirements are simple. You must merely be a citizen—between 20 and 36 years old—have had at least two years of high school or business school—have no children under 18 years of age, and not be married to a man in the U. S. Navy.

Send now for the free booklet mentioned below. This booklet will give you detailed information about physical requirements, advancements for officers, and many other important facts.

THIS SMART UNIFORM FREE!

An outfit worth \$200. An enlisted WAVE or SPAR will be provided with an allowance of \$200 for uniforms and other clothing. The official uniform ("everything that shows", except shoes and gloves) costs about \$160, which is paid from the \$200 allowance. The balance of about \$40 is given you for shoes, under-clothing and anything else you may need.

This trim Navy blue uniform was styled by a famous designer to flatter every figure and make you look—and feel—your best.

The WAVES and SPARS, dressed so smartly, gain the admiration of all the men in the service.

WOMEN NEEDED NOW

For Important Jobs

No Previous Training Necessary.

AVIATION

Link Trainer Operators
Dispatching
Aviation Machinists
Line Assistants
Parachute Rigging
Aerologists

RADIO

Operators
Control Tower
Radio Room
Direction Calling
Signal to Pilot
Technicians

Also opportunities to serve as yeomen, storekeepers, hospital technicians and on general duty.

You'll be taught one of THESE CRAFTS

Following recruit training, you can serve your country where you can serve best, in work you'll enjoy, and at the same time be trained for a profitable civilian career.

YOUR COUNTRY NEEDS YOU NOW

Uncle Sam needs your services badly, and immediately. So act now. IF YOU JOIN THE WAVES OR SPARS, NOBODY CAN EVER SAY YOU DIDN'T DO YOUR PART. Enlist while the need is so great and your opportunities are so much better. The enemy won't wait. WHEN THE WAR IS WON YOU CAN PROUDLY SAY, "I WAS IN THE U. S. NAVY!"

A NEW LIFE FOR WOMEN

Answer YES to the following and you are qualified to be an applicant: I am an American citizen, between 20 and 36, have no children under 18, and am not married to a man in the branch of the service for which I will apply. (Note: You may marry anyone you choose after your basic training is complete.) I have 2 years or more high or business school. I am in normal good health.

GET THIS FREE BOOKLET

Get your copy of the booklet, "How to Serve Your Country in the WAVES or SPARS." Read about the requirements for enlisted women, the college-like life while training, the list of free clothing, pay and allowances for different ranks, how to become an officer, questions and answers, how and where to apply, etc. Mail coupon, phone or call in person for this free book and more information — also application blank. No obligation.

Apply to Room 33—Postoffice Bldg., Waukegan, Mondays and Tuesdays — 1:00 to 5:00 and 7:00 to 9:00 P. M. — or U. S. Navy Recruiting Station — 321 Plymouth Court, Chicago.

WEEKLY NEWS ANALYSIS

Strong Allied Drive in South Pacific Threatens Main Jap Base in Solomons; Nazis Make New Bid to Cripple Russia Through Attack on Orel-Belgorod Line

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

Taking oath as colonel, Oleta Culp Hobby assumes command of the new Women's Army corps, which replaces the WAAC. Pictured with Colonel Hobby from left to right are Brig. Gen. H. B. Lefis, acting adjutant-general of the army, Gen. George C. Marshall, and Lieut. Gen. Brehon Somervell.

NAVY STRIKES: Jap Fleet Hit

The battle in the Southwest Pacific grew in intensity, with the Japs throwing the full weight of their air and sea power against the advancing Allied forces. Drawn out by the U. S. navy's shelling of the Jap anchorage of Bairoko, through which supplies have been carried to the big enemy air base of Munda on New Georgia island, formations of the Japanese fleet engaged the American ships in the Kula gulf, coming off a poor second best.

According to a communique from General MacArthur's headquarters, no less than six enemy vessels probably were sunk and four damaged. We lost one cruiser, which with a destroyer sunk in the Bairoko bombardment and a transport knocked out in the earlier landings, brought our own known losses to three.

All along the 700 mile front the Japs hurled their aircraft at American positions. Enemy fighters and bombers flew over newly occupied Rendova, struck at General MacArthur's beachhead below Salamaua in New Guinea, and attacked Darwin in northwestern Australia in force. At Salamaua, Allied forces had worked their way through jungle to the northwest, so that with General MacArthur's position, that Jap base was now ringed from three sides.

JAPAN: Parcells Out Territory

In development of the "great east Asia co-prosperity sphere," Japan ceded four Malay and two Burmese states to the kingdom of Thailand. North of Malaya and east of Burma, Thailand, by its alliance with Japan at the start of the war, provided the Japanese with a backdoor into these British possessions.

The cession of the Malay states gave Thailand rich rice, tin and rubber producing territories. The population includes more than a million natives. The two Burmese states constitute 24,000 square miles.

The cession was made on occasion of Premier Hedeki Tojo's visit to the Thai capital of Bangkok. Tojo later went to Shanghai, where Chandra Bose, exiled Hindu nationalist leader, called for the organization of all rebels for the defeat of the British in India.

WAR PRODUCTION: Up and Down

Declaring that we are on the verge of one of the greatest trials of our national history, War Production Chairman Donald Nelson revealed that the nation's arms output for May had gained 4 per cent in aircraft and naval vessels, but fallen in other lines.

On a weight basis, airplane production jumped 10 per cent in May, Nelson said, with bomber deliveries up but fighter manufacture unsteady. A total of 204,000 tons of naval vessels were completed. In other lines, ground ordnance, such as tanks, artillery, etc., was down 3 per cent; merchant vessels were down 4 per cent, and miscellaneous munitions were down 7 per cent.

For the first half of the year, Nelson said the estimated output fell below the goals marked out. Merchant shipping was 44 per cent of the year's objective; army ordnance and naval vessels, 40 per cent, and aircraft, 35 per cent.

DADS: O. K. Draft Delay

By a vote of 11 to 5, the senate military affairs committee voted to delay the induction of fathers until after January 1, 1944. Congressional action on the bill will not be taken until sessions are resumed in September, however, one month before the drafting of fathers is scheduled.

Introduced by Senator Burton Wheeler, the bill provides that any man married before Pearl Harbor, who has maintained bona fide family relationships since that date and has children under 18 years of age, would be exempt from induction until the first of next year.

As the Wheeler bill was being approved by the committee, the War Manpower Commission announced that an additional 3,600,000 persons will have to be placed in the services and munitions industries within the next 12 months. Of the total 2,000,000 men and women will be needed in uniform, 1,500,000 by December 31.

Materialization of the WMC plans will mean that half of the population will either be fighting or working. 11,300,000 will be in the services; 11,600,000 in war industries; 12,000,000 in agriculture, and 30,000,000 in other non-farm work.

POST-WAR WORLD: What Labor Thinks

How one great union feels about the post-war world was ably expressed by the United Automobile Workers, CIO, in a seven-point program for peace time.

Among other things, the UAW called for government ownership and operation of industries whose monopoly gives them dictation in their fields; the 30-hour week, and a vast public works program, calling for construction of schools, highways and power projects.

Of private industry, the UAW said: "Our industries can no longer be operated to serve private interests where those private interests conflict with the public need. Initiatives can find its most useful outlet, greatest recognition and highest reward when exerted in the public service."

CABINET FEUD: Jones Answers Wallace

Far continued to fly in the heated cabinet feud between Vice President Henry Wallace and Secretary of Commerce Jesse Jones over Wallace's charges that Jones had throttled activities of the Board of Economic Warfare, and failed to build up an adequate stockpile of tin, rubber, quinine, etc., before Pearl Harbor as directed by congress.

Repeating his previous statement that the Reconstruction Finance Corporation which he heads has committed itself to purchase 3 1/2 billion dollars of foreign material, Jones said the BEW initiated only 10 per cent of this business. Then he declared that the RFC cannot sign blank checks for the use of any government agency, and charged Wallace with amending President Roosevelt's original order setting up the BEW to permit approval of BEW transactions without inspection.

In the matter of stockpiles, Jones said our supply of quinine was ample and BEW's program for obtaining the drug in South America failed to take account of that continent's unfamiliarity with producing the bark. BEW accused Jones of overestimating our inventory by 50 per cent, and delaying the BEW's production program.

MEDITERRANEAN: Adolf Comes to Rescue

Increasing opposition to Allied air raids on Italy and her neighboring islands by swarms of Axis planes many of them German, indicate that the Nazi air force is being employed in strength in the critical Mediterranean area.

Despite the stiffening resistance, however, Allied planes broke through to pound Palermo to such an extent that the Italian radio admitted that Sicilian air and naval base was of no further use. Allied reconnaissance also disclosed that the Italians had destroyed shipping installations at the harbor of Trapani. According to American fliers, the

Axis met the strong Allied formations with new tactics. Approaching the rear echelons of the Allied squads, the enemy planes flew in a single line, dropping incendiaries that burst into strings of small explosives.

Official Axis circles owned an attack on Sicily or Sardinia or Corsica. Capture of Sicily would be necessary for an attack on the Italian mainland or protecting Allied convoys bound for the Balkans, they said, while occupation of Corsica and Sardinia would be necessary for an invasion of the French coast.

POLES: Russian Status Unchanged

The tragic death of Gen. Wladyslaw Sikorski, premier of the Polish government-in-exile, has not altered that government's attitude toward Soviet Russia, its officials declared. Poland's attitude will continue to be one of friendliness, with insistence on Polish territorial rights, which have been contested by Russia's claim to portions of the former Polish republic.

Producing FOOD FOR VICTORY on the Farms of Northern Illinois

On their 80-acre farm, located northeast of Streator, Mr. and Mrs. Snyder, with the help of one man, raise, dress and sell 12,000 chickens a year. They also maintain a laying flock of 350 hens.

HOW ELECTRICITY HELPS THE SNYDERS INCREASE POULTRY PRODUCTION

In answer to Uncle Sam's urgent call, Mr. and Mrs. Marion Snyder are putting all their effort into boosting food production. They are working longer and harder than ever before to help meet America's wartime needs.

And just as in peacetime, the Electric Power we supply is helping the Snyders and 35,000 other farm

families of Northern Illinois. It pumps the water, grinds the feed, runs the portable motor. Performs countless chores to speed production of poultry and livestock, milk and produce. Indeed, in these times of food shortage and manpower shortage, Electric Power distinguishes itself as a fast friend of the farmer.

Hot electric water heater, washing machine, ironer and other electric appliances save Mrs. Snyder hours of work in her home—time she puts to good use helping raise food for victory.

Mr. Snyder builds his own outdoor chick runs and houses. Electricity supplies the heat for the brooders which protect the baby chicks.

HIGHLIGHTS . . . in the week's news

CONSTRUCTION: All building materials and construction facilities have been placed under the control of the War Production board, "in order to eliminate all non-essential construction."

GRAIN: Oats sold at the highest in 23 years on the Chicago market at 73 1/2 cents a bushel, while rice reached \$1.12 1/2 recently.

SUGAR: About one-third less acreage was planted in sugar beets this year than last. Leaders of the industry blame shortage of labor, and competition of other crops more favored by governmental aid.

BANKS: The Chase National Bank of New York, the world's largest, reports total assets of \$4,482,000,435 in its latest statement.

Electricity, too, has gone to war—don't waste it!

Rulers Since 1705
The family of the bey, nominal ruler of Tunisia, has reigned since 1705.

Youthful Aerialist Makes Slight Error

DENVER. — Commando John Armbeck, nine, placed a mattress atop a downtown garage, climbed to the roof of a business building near by, took a long run and jumped into space.
Hurling 30 feet, he missed the mattress, hit the garage roof and crumpled off another 15 feet to the pavement. Slightly injured.

Oddities Heard on OPA Phone Calls

Switchboard Clearing Place For Queer Messages.

CLEVELAND.—Sit yourself down at the switchboard of the regional OPA here and listen in on some of the quaint telephone calls that come in over the lines.

"I've got an invention that will win the war," an earnest male voice says. "It's a way to black out whole cities in the daytime."

After being assured that his device will not be discussed with anyone in the enemy camp, the caller goes on to explain how it works.

"It's a battery of giant sprays," he says. "At the first sound of enemy planes, the sprays go into action. They spray the city with a dark cloud of oil. The city's invisible."

Another "inventor" calls, saying Washington won't listen to him.

"I have a device that will win the war," he announces. "It's a perpetual motion machine and it will run our factories without fuel and energy."

Then there's a call from a voice that reflects 21, blonde, and blue eyes.

"I want to join the WOWs," she says. "How do I go about it? By the way, is a WOW what I think she is?"

"A WOW is a woman ordnance worker," the OPA telephone operator answers.

"Ordinance, eh?" Silence. Then, "Is that machinery?"

"Yes."

"So that's what a WOW is? A woman factory worker. Oh, well. Never mind. Thanks."

Still another says she keeps hearing "spirits" when she turns on her radio.

"Spirits come over the air and haunt me," she complains. "They keep talking to me. I want it stopped."

Too Many Girls, Wives
Bring Peck of Trouble

NEW YORK.—Two wives, a few girl friends and registration with four different draft boards proved an unhappy snarl for Benjamin Cohen, 38.

Cohen, picked up here by the Federal Bureau of Investigation, admitted he had registered at one board in Los Angeles and with two here, using the names Tucker, Lebrun and Dawson. He once registered under his real name, he said.

It wasn't that he wanted to avoid the draft, he explained, but he just wanted to avoid trouble with two wives and some girl friends. He didn't name them.

Finder and Loser Come Out Even in This Case

SAN FRANCISCO.—Mrs. Lillian Stoddard called the market to report that resting comfortably in a head of lettuce she had just bought was a \$50 bill, and whose was it, please?

Soon a sailor was at her door, saying he was Tim Morris and that he had lost the fifty while buying fruit.

"You're luckier than I am," said Mrs. Stoddard as she handed him the money. "I lost my bag a few days ago but couldn't find a trace of it."

"If it's a brown purse with the initial S on it," said Morris, "I found it while scouting around for my \$50."

It was hers.

Girl's \$2,000 Spending Spree Winds Up in Jail

CHICAGO. — A \$2,000 spending spree, punctuated by gallons of milkshakes and \$30 bouquets, was only a memory today for 14-year-old Anna Valentino.

Anna confessed to police that she stole \$2,000 from Mrs. Sarah Gianola's flat, where she was hired to do housework. Anna said she spent all but a few dollars on clothes, shoes, and gifts for herself and her five girl friends. She consumed many chocolate milkshakes and bought \$30 sprays of flowers for her mother.

She was taken to the juvenile home.

U. S. Plant Turns Out First Synthetic Rubber

BATON ROUGE, LA.—An extensive new plant built with skillful engineering economy in strategic materials turned out the government's first synthetic rubber in compact bales destined to keep Allied war machines rolling to victory.

THE POCKETBOOK OF KNOWLEDGE

OUR NAVY'S CORSAIR FIGHTER PLANE FIRST TO HAVE A 2000 HORSE-POWER ENGINE. IS DECIDEDLY SUPERIOR TO ALL MODELS OF THE FAMED JAP ZERO.

SINCE 1918 HARBOR AMERICAN FACTORIES HAVE PRODUCED:

37,000 TANKS

1,000,000 MACHINE GUNS

14 BILLION ROUNDS OF AMMUNITION

THE PLANE IS SO NAMED BECAUSE IT COULD READILY BE PLACED EITHER SOFT OR LOUD. IT WAS ORIGINALLY CALLED "PINEAPPLE" (SOFT), "FORTE" (LOUD).

IT TAKES FROM 14 TO 22 MONTHS FOR A PINEAPPLE TO MATURE

AMERICAN RAILROADS HANDLED 11,841,838 TONS OF GOODS IN THE FIRST 12 MONTHS OF THIS WAR—MORE THAN 4 TIMES AS MANY AS IN THE SAME PERIOD OF THE LAST WAR!

Cabbage Likes Cool Season

Cabbage is a crop unto itself. Although it grows best in a relatively cool season, the spring crop, which is transplanted, completes its growth in early summer. The fall crop may be seeded directly in the row. It grows more slowly and reaches maturity just before the first killing frosts in the fall. The fall crop may be stored and used in part as slaw throughout the entire winter and early spring.

Loaded Rapidly

A modern coal-and-water fueling station can load a locomotive with 24 tons of coal and 15,000 gallons of water in as little as four minutes.

Solve Absentee Trouble

One airplane company, in an effort to control absenteeism, employs an emergency truck laden with every sort of repair equipment to handle any home mishap at all that might keep a man or woman from the assembly line. Leaky roofs, pies left to burn in the oven, broken windows are a few of the "alarms" handled by this trouble shooting detail.

Conveyor Belt

A conveyor belt 65 miles long, which required 50 railway cars to transport it, was recently manufactured by a rubber plant.

Columbus First Builder

The first European structure in the Western hemisphere was built from the wreckage of Columbus' flagship, which ran aground at Haiti on Christmas Eve, 1492.
